Emerging UX Designer with hands-on experience as a UX Design Apprentice, demonstrating strong skills in user research and usability testing. Relevant experience in the User Experience Design industry, showcasing a commitment to enhancing user interactions through effective design. Eager to leverage foundational knowledge and skills in a dynamic UX environment.

## WORK EXPERIENCE

---

### UX Design Apprentice

Oakland, CA

#### BRIDGEGOOD

Jun 2025 - Aug 2025

- Refined user interface elements based on user feedback gathered during testing sessions, fostering a more intuitive and emotionally resonant user experience.
- Conducted user research to identify key pain points, enabling a focused design approach that streamlined the product development timeline.
- Demonstrated strong visual design skills through framing screens with the usage of Figma.
- Reached out and interviewed stakeholders (ie business owners, nonprofits, potential users) to build a frame of insight for the digital product
- Worked in a team of other apprentices to research and develop a conceptual digital product with the central focus of improving the community, and social good.
- Created designs for the BRIDGEGOOD company itself, which was used in promotional and commercial use such as posters, banners, graphics assets, etc.

### Care Support Team Member

San Jose, California

#### Westwood Post Acute

Jul 2021 - Aug 2021

- Provided compassionate care to elderly clients in their homes, ensuring safety and comfort.
